An Initial Study has been prepared for the above-described project and the intent is to adopt a Mitigated Negative Declaration. The (proposed) Mitigated Negative Declaration finds that the project will not have a significant effect on the environment.

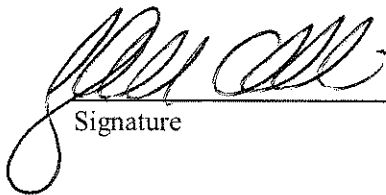

Project Summary:

Enz Quarry is an existing operation with an approved use permit and reclamation plan. It was initially approved November 2003 and was revised and approved November 17, 2010, it has operated for approximately 14 years, producing various specialty products primarily for the landscaping industry.

The Operator has submitted an application to modify the use permit and amend to the approved reclamation plan and. The Operator has reconfigured the mine plan to access different geologic materials because of the geologic conditions encountered and to plan for long-term operations because the market conditions have changed for certain products.

The public review period for the (proposed) Mitigated Negative Declaration begins on **February 3, 2017** and ends on **March 6, 2017**.

The project's Initial Study, proposed Mitigated Negative Declaration and the documents referenced in the Initial Study and Mitigated Negative Declaration are available for review at the County Planning Department at the above address. Comments may be addressed to the contact person noted above. Written comments are preferred. Please reference the project file number in all communications.
