Project Title:

Addendum to Long-Term Water Transfers EIS/EIR

Project Location:

Alameda, Butte, Colusa, Contra Costa, Fresno, Glenn, Kings, Merced, Nevada, Placer Sacramento, San Benito, San Joaquin, Santa Clara, Shasta, Solano, Stanislaus, Sutter, Tehama, Yolo and Yuba

Project Description:

The Long-Term Water Transfers EIS/EIR was certified in 2015. Additional agencies not previously identified in the EIS/EIR have since indicated that they may be interested in water transfers, and three agencies that were already identified in the EIS/EIR indicated an interest in increasing their amount of potential water transfers. These water transfers refine the range of potential transfers specifically acknowledged in the Long-Term Water Transfers EIS/EIR. While individual agencies may be able to transfer additional water, the overall water transfers in total for all agencies would not exceed the 511,094 acre-feet analyzed in the EIS/EIS. SLDMWA prepared an Addendum to evaluate the potential differences between the impacts analyzed in the EIS/EIR and those associated with project refinements. SLDMWA determined that the refinements to the range of potential water transfers would not result in new or substantially more severe environmental effects and do not require further environmental review.

Project Title: Long-Term Water Transfers

Project Applicant: San Luis & Delta-Mendota Water Authority

Project Location (include county): See attached list of counties

Project Description:

SLDMWA Participating Members experience severe reductions in Central Valley Project (CVP) water supplies during dry hydrologic years. A number of entities upstream from the Sacramento-San Joaquin Delta have expressed interest in transferring water to reduce the effects of CVP shortages to these agencies. The alternatives evaluated include transfers to CVP contractors that are made available through groundwater substitution, cropland idling, reservoir release, and conservation from 2015 to 2024.

This is to advise that the San Luis & Delta-Mendota Water Authority has approved the above described project on April 9, 2015 (date) and has made the following determinations regarding the above described project.
