NOTICE OF PACIFIC GAS AND ELECTRIC COMPANY'S REQUEST TO INCREASE RATES FOR ELECTRIC TRANSPORTATION PROJECTS (A.18-07-021)

Summary

On July 30, 2018, Pacific Gas and Electric Company (PG&E) filed its Electric Transportation Pilot Project application with the California Public Utilities Commission (CPUC). This application requests \$4.13 million to expand the electric transportation initiatives offered by PG&E and help California meet the goals outlined in Senate Bill 350: Clean Energy & Pollution Reduction Act (SB 350).

The pilot is designed to provide electric vehicle charging stations for moderate to low income residential customers and provide education in these communities to support more customers getting electric vehicles.

Background

The goals of SB 350 are to reduce dependence on petroleum, meet air quality standards, and reduce greenhouse gas emissions. In 2017, PG&E and the other California utility companies submitted their first applications under SB 350 to promote widespread electric transportation. In early 2018, the CPUC approved the applications and authorized the utilities to submit applications requesting to increase rates for the approved projects.

How will PG&E's application affect me?

Many customers receive bundled electric service from PG&E, meaning they receive electric generation, transmission and distribution services. Based on rates currently in effect, the bill for a typical residential bundled non-CARE customer using 500 kWh per month would increase from \$111.59 to \$111.61, or 0.02 percent.

Actual impacts will vary depending on energy usage.

How will PG&E's application affect customers who buy electricity from a third party?

Direct Access and Community Choice Aggregation customers only receive electric transmission and distribution services from PG&E. On average, these customers will see an increase of 0.02 percent.

Departing Load customers do not receive electric generation, transmission or distribution services from PG&E. However, they are required to pay certain charges as required by law or CPUC decision. These customers will not be impacted by this application.

How do I find out more about PG&E's proposals?

A copy of PG&E's filing and exhibits is also available for review at the CPUC's Central Files office by appointment only. For more information, contact aljcentralfilesid@cpuc.ca.gov or **1-415-703-2045**. PG&E's application (without exhibits) is available on the CPUC's website at www.cpuc.ca.gov.

CPUC process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary hearings may be held where parties will present their testimony and may be subject to cross-examination by other parties. These evidentiary hearings are open to the public, but only those who are formal parties in the case can participate.

After considering all proposals and evidence presented during the hearings, the assigned Judge will issue a proposed decision which may adopt PG&E's proposal, modify it or deny it. Any of the five CPUC Commissioners may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

The Office of Ratepayer Advocates (ORA) may review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multidisciplinary staff with expertise in economics, finance, accounting and engineering. For more information about ORA, please call **1-415-703-1584**, email ora@cpuc.ca.gov or visit ORA's website at www.ora.ca.gov.
