REMOVE: 415119 SCAN: 2519

February 4, 2019

Attention: Government Documents Section

The California Fish and Game Commission is the lead agency for a project to modify existing hunting regulations for migratory game birds pursuant, to the California Environmental Quality Act (CEQA). The Department of Fish and Wildlife has modified the draft environmental document originally distributed to you in December 2018.

CEQA §15087 (g) provides direction to lead agencies to deliver draft environmental documents to the public library system servicing the area involved in the proposed project. Because hunting regulations are statewide, the public in virtually all counties should have access to the review and analysis of the proposed project.

Enclosed is an amended copy of the Draft Environmental Document regarding Migratory Game Bird Hunting (Waterfowl, Coots, Moorhens) prepared by the California Department of Fish and Wildlife in compliance with CEQA.

To provide the public with an opportunity to review and comment on the proposals contained in this document, please make it available for public review until March 25, 2019.

If you have any questions regarding this request, please contact Melanie Weaver of my staff at the letterhead address or by telephone at (916) 445-3717.

Sincerely,

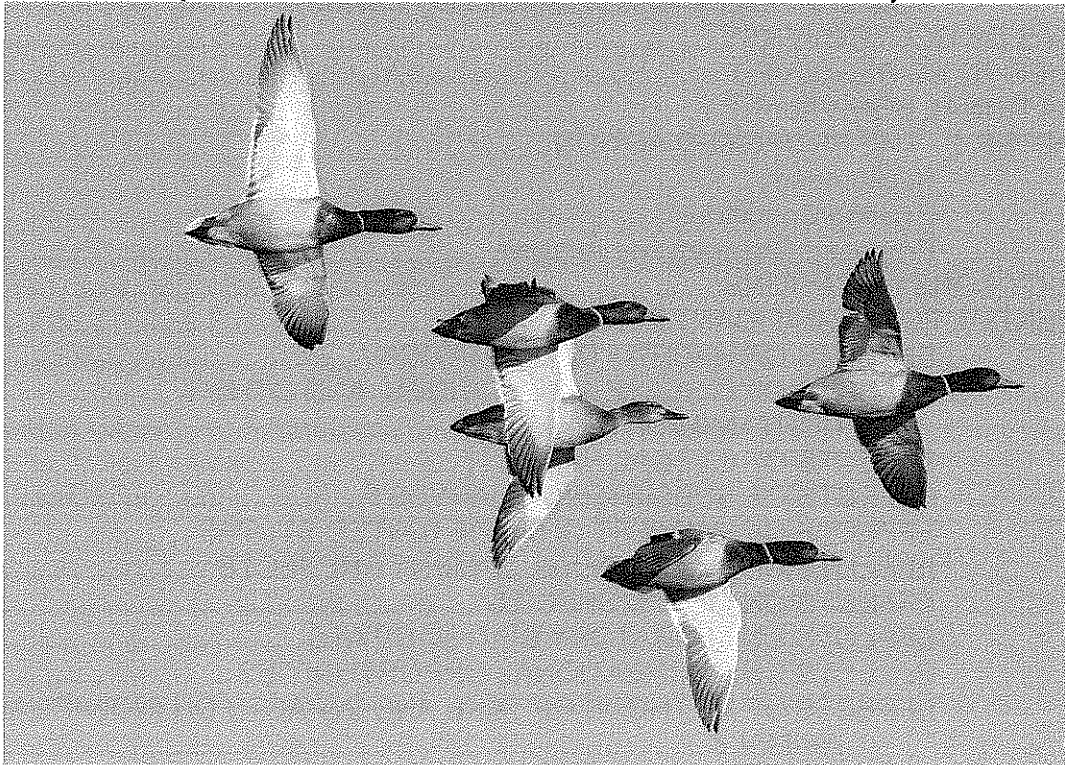

Kari Lewis, Chief
Wildlife Branch
